

Call for Proposals ^[1]

**You're invited to submit a proposal for
Classic COLTT: *Forward into the Past***

Deadline for proposals: May 3, 2024

On the fast-forward trajectory of technology, COLTT pauses in 2024 to look back to remember that change is a constant. When technology causes disruption, it often brings solutions as well. The COLTT community can best prepare for what's ahead by drawing on the wisdom cultivated over years of convening, exchanging, and experimenting.

This year we return to the Wolf Law Building, starting on July 31st with several pre-conference workshops, and a full day of sessions on August 1st.

Pre-conference Workshops

July 31, 2024, 10:30am-3:00pm

Full Day Conference

August 1, 2024, 8:00am-4:15pm

Examples of topics include (but are not limited to):

- Augmented or virtual reality for teaching and learning
- Data analytics for student assessment and feedback
- Discipline/Field specific uses for AI
- Games or simulations for teaching and learning
- Online collaboration tools for group assignments
- Social media for teaching and learning
- Tools/Software to improve Accessibility in STEM courses
- Use of multimedia (such as video, audio, and images) in the classroom or in assignments

Proposals should be engaging, challenging, and effective for students and include the following information:

- Presenter Name and Institution
- Title and Session Description
- Purpose/Learning Objective(s)
- Description of participant engagement activities
- Relevant Readings/References

Deadline for proposals: May 3, 2024

Notification of acceptance: Rolling Acceptance, but no later than *June 7th*
