

Retirement Plans ^[1]

CU is committed to helping you reach your retirement goals.

Be careful with financial advisor solicitations

Unauthorized, misleading solicitations for financial advice from individuals and/or organizations claiming to be associated with CU have been reported. These solicitations purport to help with financial planning. Most are intentionally misleading and falsely suggest that CU endorses their services.

Retirement To-Do List

Retirement saving should never be a “set it and forget it” task. Life circumstances, market fluctuations and career changes can all affect your savings and how soon you’ll need to access those funds. Here are just a few examples of the kind of regular maintenance you should keep up with to ensure a healthy nest egg:

- Assign beneficiaries and reassess every time a crucial life event occurs, such as marriage, birth or adoption.
- View your balance, investment gains or losses and any applicable investment

transactions.

- Use available retirement calculators to gauge how much you'll need in retirement and assess how likely you are to meet your goals in time for retirement.
- Direct your investments based on the level of risk you're comfortable with at your individual career stage.
