The Future

- Given the sea of sustainability related committees, what do we want to accomplish here?
 - **Procurement focused**
 - Discuss specific areas of procurement (transportation, waste, energy, food, construction materials, etc...) bring in stakeholders, develop action plans
 - EX- EV Fleet transition, bring in transportation stakeholders including buyers, review demand/capacity/roadblocks/support needs/etc..., develop an action plan
 - **Evaluation/Reporting focused**
 - Review various reporting needs (STARS, UN, General Scope 3 reporting), develop a central method of data collection/evaluation/reporting, discuss 3rd party opportunities, develop a central data base of Scope 3 (and beyond) data to be utilized as needed
 - **Project focused**
 - Pick a few projects to tackle on an annual basis and focus efforts on completing those projects specifically
 - Freezer audit/Energy evaluation/Recommendation for AMC
 - Travel Carbon Offsets
 - Standard Configurations for IT equipment
 - Composting/Food Waste
 - Recycled Printer Paper Policy
- *No matter the focus, one consistent action should be to leverage this group to inform the CFO group in a unified manner*
- All of the above
- Monthly sustainability procurement workshops?
