

ADA Employee Assistance ^[1]

Gaining Assistance for Your Job with a Physical Disability

Navigating the workplace with a physical disability can be challenging, but there are many resources and strategies available to help you succeed.

At the University of Colorado, individuals with disabilities are entitled to access, support, and when appropriate, reasonable accommodations. CU System Human Resources is here to assist you.

To report an access barrier, fill out the Report an Accessibility Issue Form. For reasonable accommodations, email System HR at systemhr@cu.edu. Confidentiality of your accommodation information is protected by law.

Creating an inclusive workplace that empowers you to perform at your best is the priority. Reach out today to explore tailored solutions that support your unique needs and aspirations.
