

## **eComm Upgrade | Cvent Changes** <sup>[1]</sup>

March 4, 2019 by [Melanie Jones](#) <sup>[2]</sup>

While Cvent looks and functions the same, beneath the surface is an upgraded integration with Salesforce.

### **Automatic Salesforce Integration**

Use Salesforce to further target your invitations based on overall event details and individuals' participation, including:

- event dates and capacity
- fees and accounting information
- all event registrants (including guests, if captured)
- individual participation status (if collected)

### **UPDATE**

Past events will be updated in Salesforce with a new campaign name and additional event details.
