True or False There's no way to share Cvent Reports with unlicensed individuals. Scroll down for the answer.

General Updates

Marketing Cloud

- **Four New Session Recordings Available:** A big thank you to everyone who took part in our recent Marketing Cloud sessions, where we delved into numerous tips, all aimed at creating optimized emails. Watch the recordings at the wikis linked below:
 - [Three Text Block Tips](#) ^[3]
 - [Accessibility Best Practices](#) ^[4]
 - [Designing for Mobile](#) ^[5]
 - [Marketing Cloud Image Best Practices](#) ^[6]
- **Organize With Folders:** Sharing a Business Unit with other eComm Users? Be sure to select the correct [tracking folder](#) ^[7] for your sends.
- **Restarting Data Extensions:** Ensure [successful Data Extension import](#) ^[8] before scheduling/sending your email. Sending during the import can lead to the email reaching an outdated — and smaller than expected — audience.

Cvent

- **Success Story | OnArrival:** [Check out resources from a Nov. 2023 presentation by Monica Cutler \(CU Denver\)](#) ^[9]. She has helped her alumni/advancement team embrace Cvent's technology to enhance day-of-event processes for a better attendee experience.
- **Special Characters in Event Title:** As of December 2023, special characters can now be used in event titles. Previously, event titles containing special characters would cause issues with credit card payments, leading to reconciliation problems with

Authorize.net and Wells Fargo. This resulted in failed payments, delays, and difficulties in issuing refunds. Fortunately, this is no longer the case.

- **Cvent Express is Sunsetting:** While no timeline has been provided, we have been informed that Express events are to be sunset. That means all events will need to be created in the more robust [Flex/Standard format](#) [10]. eComm users will be communicated with once Cvent provides a timeline and as it approaches. There is no need to take immediate action.
