

Enabling Product Notifications ^[1]

March 27, 2020 by [jennifer.mortensen](#) ^[2]

There four primary notifications you should enable to ensure that you are aware of service disruptions (or full-scale outages) in Salesforce and Marketing Cloud.

Salesforce CRM03

(Org ID 00Df40000038uQS, NA59)

[View status](#) ^[3] and [enable notifications](#) ^[3] for NA59 by clicking "Subscribe" in the upper right corner.

INSTANCE
NA59

General Notifications from the Trust Site

To ensure you are also configured to receive general notifications from the [Trust site](#) ^[5], click the notifications icon (the megaphone) in the upper right corner of the screen.

Then, type your email address in the text box provided. The trust site will send you an email with a personalized link that allows you to verify and manage your subscription settings. Ensure that you are opted into General Notifications as well as the notifications listed above. If you aren't opted into General Notifications, click the create new button in the upper right corner to create that notification.

SUBSCRIBE TO	EMAIL
VIA	EMAIL
DB729	All
NA59	All
General Message	All

Other Marketing Cloud Notifications

To receive additional notifications from Marketing Cloud, while logged into the application, access Salesforce Help and Training in the upper right corner of the screen.
