

Subscribe to & Favorite Salesforce Dashboards ^[1]

August 8, 2023 by [Melanie Jones](#) ^[2]

Subscribe to Dashboards

Subscribing to Dashboards (up to five) delivers dashboard information to your inbox at a cadence you choose. Follow these steps to subscribe yourself:

1. Navigate to the Dashboard to which you wish to subscribe (instructions above)
2. In the top right corner, click **Subscribe**
3. A popup will allow you to schedule your subscription:
 - **Frequency:** Daily/Weekly/Monthly
 - **Day(s):** Any day of the week
 - **Time:** Any time of day, on the hour
4. Click the blue **Save** button in the bottom right of the pop-up

NON-SALESFORCE USERS Do you have a member of your team who is interested in the information on a Dashboard but is NOT a Salesforce user? Subscribe yourself and set up an Outlook forwarding rule to send it along.

LIMITATION The Subscription email in your inbox will include all visual components of the Dashboard. It will reflect all the data, not a filtered version of the Dashboard.

Favorite Dashboards

If you find yourself consistently navigating back to the same dashboards, using the favorite feature can save you clicks (and time).

- Login to Salesforce
- Click **Dashboards** in the top navigation

- Select **All Dashboards** listed down the left
- Search for the name of the Dashboard (in this example, 'filter')
- Once you see the name of the dashboard you wish to favorite, click the **down arrow** in the last column.
 - You may have to scroll to the left to see the last column.
- Click **Favorite** in the dropdown.

The screenshot shows the Salesforce interface. At the top, there is a navigation bar with the Salesforce logo, 'eComm', and menu items: Home, Chatter, Reports, Campaigns, and Dashboards. The 'Dashboards' menu item is highlighted with a red box and a red number '1'. Below the navigation bar, the 'Dashboards' page is displayed. On the left sidebar, there are sections for 'DASHBOARDS' and 'FOLDERS'. Under 'DASHBOARDS', there are options: Recent, Created by Me, Private Dashboards, and All Dashboards. The 'All Dashboards' option is highlighted with a red box and a red number '2'. The main content area shows a list of dashboards with columns for 'Dashboard Name' and 'Description'. The list includes items like '01 Boulder Email Send Dashboard with Filter', '02 Anschutz Email Send Dashboard with Filter', '03 Denver Email Send Dashboard with Filter', '04 UCCS Email Send Dashboard with Filter', '08 Email Sends with Aggregate Link Level Details Filtered', '08 IER Filtered', '08 System Email Send Dashboard with Filter', and '08 UREL Kennedv eNews with Filter'.

Now you can easily navigate to you favorites in two different ways:

- Select the **My Favorites dropdown** in the top-right corner of Salesforce.
- All favorites will be listed below.

Campus

Date Sent

starts with UCCS ▼

equals LAST MONTH - TODAY ▼

- Select the **dropdown arrow to the right of Dashboards** in the top navigation.
- Your favorite Dashboards will be pinned to the top.

The screenshot shows a Salesforce dashboard interface. At the top, there is a navigation bar with 'eComm', 'Home', 'Chatter', 'Reports', 'Campaigns', and 'Dashboards'. A search bar is located in the top right corner. The main dashboard area is titled 'All Email Send Dashboard with Filter' and includes filters for 'Campus' (set to 'starts with UCCS') and 'Date Sent' (set to 'equals LAST MONTH'). A large card on the left displays '156' emails. To the right, a chart titled 'Total Emails Sent by Month and Subject Line' shows a stacked bar chart with a y-axis labeled 'Number of Number Sent' ranging from 200k to 600k. A sidebar on the right, titled 'My Favorites', lists several dashboard items, including '08 ECOMM OG Mo' and '01 Boulder Email S'.

Upvote This Idea We fully understand the desire to have a Dashboard emailed to you with the filter applied. Unfortunately, Salesforce functionality does not currently support this. [Upvote this idea in the Salesforce Community \[3\]](#) and you will be notified if it's prioritized.

As you subscribe to dashboards, take note of [these limitations \[4\]](#):

- You can subscribe to filtered dashboards, but **dashboard filters are never applied to emailed dashboards**. When you open the email, the dashboard is displayed unfiltered.
- Each user can set up subscriptions for up to 5 dashboards.
