

CU-Data 11.1.5 Upgrade and Training Complete [1]

February 28, 2020 by [Elizabeth Snow-Trenkle](#) [2]

Hello, IRM Users!

This week we finished the upgrade to 11.1.5 in Production, addressing security vulnerabilities IBM recently announced (

https://www.ibm.com/support/pages/node/1146424?myns=swgimgmt&mynp=OCSSTSF6&mync=E&cm_-OCSSTSF6_-E [3]).

We conducted a training yesterday with the following agenda:

- Summary of recent tickets and failed reports
 - Access Query Studio
 - My Preferences
 - Renew credentials
 - Provide parameter values
 - Database is down
- Tips & Tricks
 - Visual aids
 - New Query Options
 - Run Options
 - Group repeating cells (Excel)
 - Additional Resources
- What's New
- Security and Access

Please find the fix list for CU-Data (Cognos) versions 11.1.3, 11.1.4, and 11.1.5 attached as well as the PowerPoint slides from yesterday's training.

Thank you!

Elizabeth Snow-Trenkle
