

Save Your Own Preset Prompt Values ^[1]

January 19, 2011 by [Carl Sorenson](#) ^[2]

If you often run the same report for the same set of prompt values, such as a certain list of speedtypes, you can save the values as a preset that Cognos calls a **report view**.

Here is an example, setting up a report view for **m-Fin EXPENDITURE TYPE SUMMARY**.

1. Instead of running the report, go over to the Actions column and click the Create a report view of this report... icon. It looks like a sparkling window

2. In the "Location" section, click on the **Select My Folders** link. The Location will instantly change to "My Folders".

Specify a name and description - New Report View wizard

Specify a name and location for this entry. You can also specify a description and screen tip.

Name:

Description:

Screen tip:

Location:
 Public Folders > CU Reporting > Finance
[Select another location...](#) [Select My Folders](#)

3. Click the **Finish** button. Your report view is saved but still needs to be configured with your desired prompt values.

4. Click the **My Folders** tab.

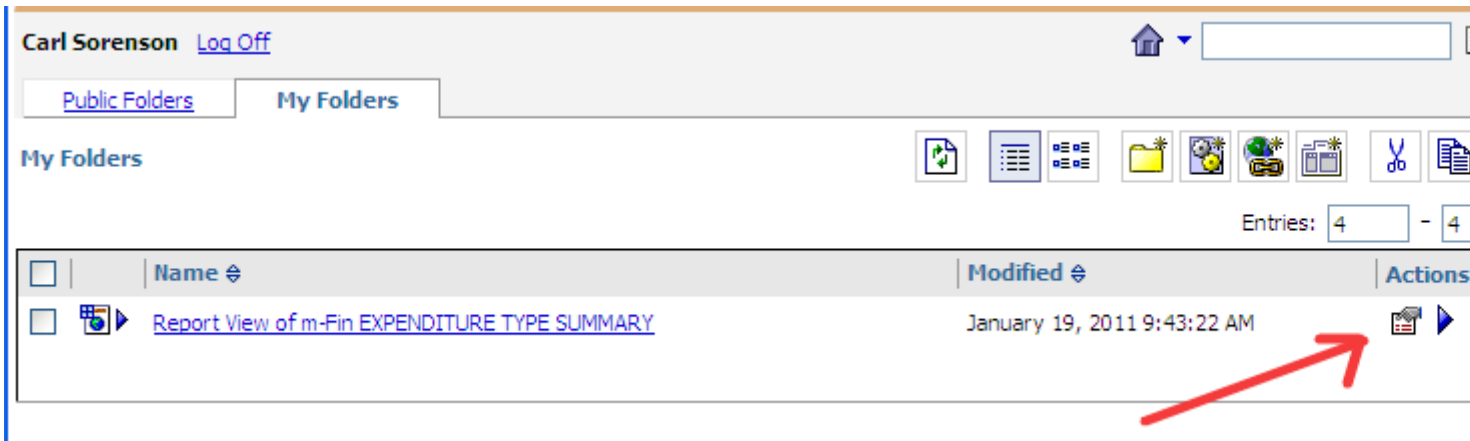

Public Folders **My Folders**

Public Folders > CU Reporting > **Finance**

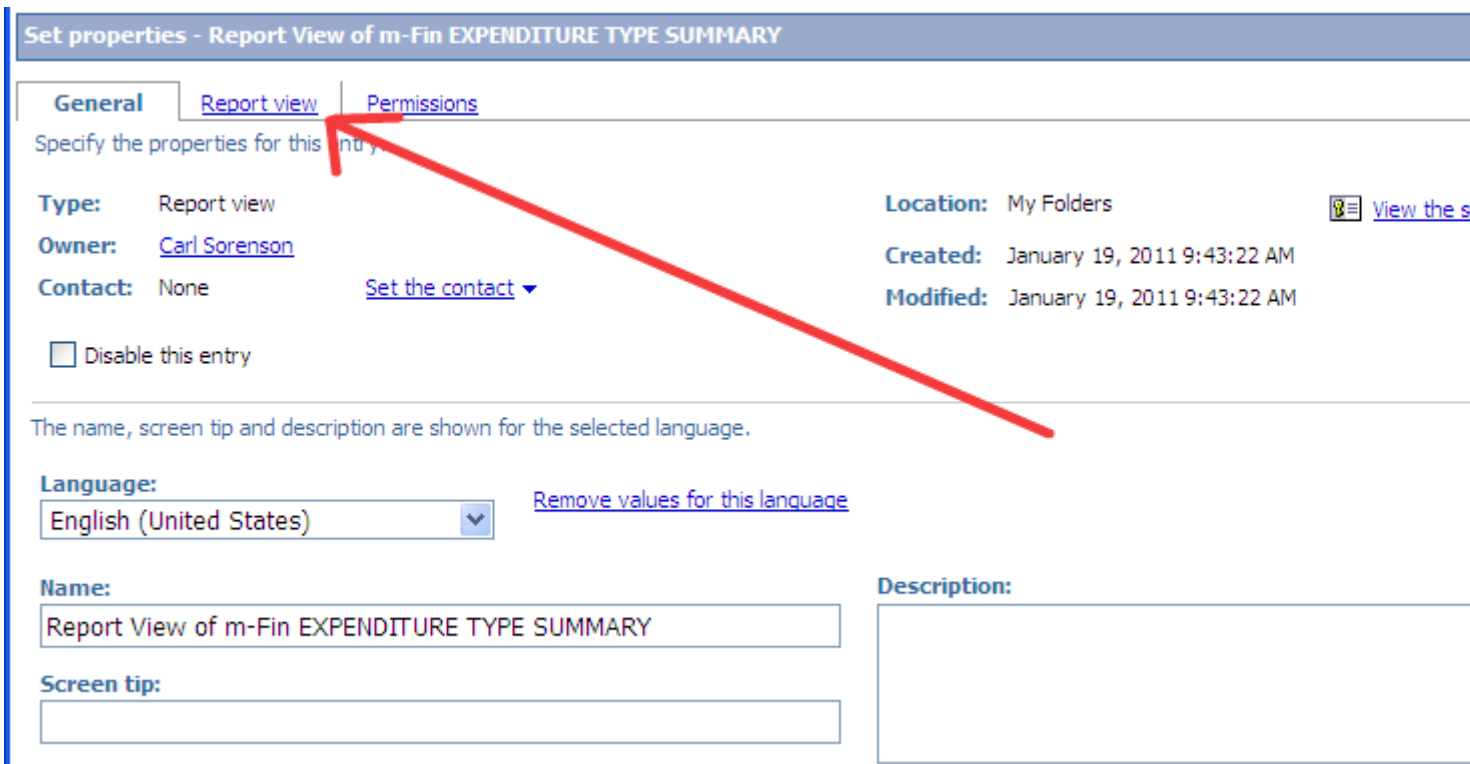

Entries: 23 - 29

<input type="checkbox"/>	Name	Modified	Actions
<input type="checkbox"/>	m-Fin BALANCE SHEET SUMMARY	January 12, 2011 1:54:15 PM	
<input type="checkbox"/>	m-Fin EXPENDITURE TYPE SUMMARY	January 19, 2011 9:39:48 AM	
<input type="checkbox"/>	m-Fin FINANCIAL DETAIL	January 12, 2011 1:54:28 PM	
<input type="checkbox"/>	m-Fin OPERATING SUMMARY	January 12, 2011 1:54:12 PM	
<input type="checkbox"/>	m-Fin REVENUE AND EXPENDITURE SUMMARY	January 12, 2011 1:54:26 PM	
<input type="checkbox"/>	m-Fin SIMPLE SPEEDTYPE QUERY	January 12, 2011 1:54:18 PM	
<input type="checkbox"/>	m-Fin TRIAL BALANCE SUMMARY	January 12, 2011 1:54:23 PM	

5. You should see your report view listed. Click the **Set properties** icon in the Actions column for your report view.

6. Click the **Report view** tab.

7. In the Prompt Values section, click on the **Set...** link.

Set properties - Report View of m-Fin EXPENDITURE TYPE SUMMARY

[General](#)

Report view

[Permissions](#)

Select the default options to use for this entry.

Default action:

View most recent report ▼

Prompt values:

No values saved

[Set...](#)

Prompt for values

Run as the owner:

8. Now the report's prompting runs. Enter your desired values.

FISCAL YEAR AND ACCOUNTING PERIOD

* 2011

* 7 -- JAN

Search and Insert S

SPEEDTYPE

Keywords:
Type one or more keywords separated by spaces.

11000034 Search

Options

Results:

11000034 -- ENGL SALARIES ACTIVE
63000000 -- ...
630000311 -- ARRA ...
630000000 -- ...
630000000 -- ...

Choices:

63000000

Insert

9. Click **Finish**. Instead of running the report, Cognos saves the prompt values.
10. Click **OK**.

Now whenever you return to Cognos you can go to the **My Folders** tab and run this report view. The prompt screen renders preset with your saved values. You can alter the values if you'd like, before you click Finish to run the report.

A report view is really a pointer to the original report rather than a separate copy of it. So if we revise the report, your report view will reflect our changes next time you run it.

Consider any report views you set up in the Cognos QA system to be practice. You will need to create them again in production when the m-Fin reports arrive there.
