

## **DataStage Upgrade Scheduled July 11-12** <sup>[1]</sup>

July 10, 2019 by [UIS Communications](#) <sup>[2]</sup>

### **Description:**

The DataStage upgrade will take place the evening of July 11 and into the morning of July 12 during the normal nightly ETL load. DataStage is the tool that is used to Extract, Transform, and Load (ETL) data nightly to the Central Information Warehouse (CIW) for reporting. Please plan for the possibility that this upgrade may extend past the normal nightly load deadline of 7 a.m. on Friday, July 12. If a delay does occur, we will send a follow-up communication with a new estimated time of arrival.

This upgrade does not include any modifications to the CU-DATA (Cognos) application. Cognos will function as it does during the normal nightly CIW loads.

**If you encounter any data discrepancies in CIW or Cognos after the cutover is complete on July 12, please contact [irmhelp@cu.edu](mailto:irmhelp@cu.edu) <sup>[3]</sup> as soon as possible.**

**Timing:** July 11-12

**Impact:** [Central Information Warehouse \(CIW\)](#)[Central Information Warehouse \(CIW\)](#)

[The Central Information Warehouse \(CIW\) is CU's system-wide centralized data repository for information sourced from administrative systems.](#) <sup>[4]</sup> | [CU-Data](#)[CU-Data](#)

[The CU Reporting System \(CU-Data/CU Reporting/Cognos/Motio/Data Stage\) is a robust tool offering standardized business intelligence reports to assist with analysis and presentation of data contained in the Central Information Warehouse \(CIW\).](#) <sup>[5]</sup>

### **Upcoming maintenance:**

- See the [Business Calendar](#) <sup>[6]</sup> for future maintenance window dates and times.
- Visit the [UIS Maintenance Matters Blog](#) <sup>[7]</sup> for detailed information on upcoming UIS maintenance and how it affects you.

[planned maintenance](#) <sup>[8]</sup>, [other maintenance](#) <sup>[9]</sup>
