

SAP Concur Launching a Home Page Redesign in Fall 2024 ^[1]

September 13, 2024 by [Staff](#) ^[2]

SAP Concur has announced the launch of a refreshed home page experience that allows users to opt in over the coming weeks. All users can now find the option to switch to the new home page design through the banner showing at the top of their Concur homepage. Or they can wait until late October when the refreshed page will become the default setting when users log into the system. The banner showing the option to change views between the legacy view and the new design will remain enabled into January 2025, at which time SAP Concur will permanently remove the legacy page.

The redesigned home page, which is intended to significantly enhance the user experience, will bring the following benefits:

- Simplified navigation
- Refreshed, modern design
- Streamlined user workflows to facilitate faster completion of tasks
- Improved performance and responsiveness

This SAP Concur home page redesign **will not** change any features or functionality of the SAP Concur platform – it is an update only to the visual user interface.

The PSC will continue to share additional details on this change as they are made available, including the exact date the final changes will be effective. If you have any questions, please reach out to PSC@cu.edu ^[3].
