

COLTT 2022 Data ^[1]

COLORADO LEARNING AND TEACHING WITH TECHNOLOGY

COLTT engages participants in learning about teaching practices and technologies, challenging the way they think about both. By attending sessions and hands-on workshops, attendees are able to network and gather effective practices that change the way they teach and learn in classrooms, online, and in virtual environments.

2022

SESSION TOPICS INCLUDED:

- **Open Educational Resources:** "But It's Not Peer-Reviewed!": Addressing Quality Control in the OER Landscape
- **Inclusive Pedagogy:** Creating a Student-Centered Invigorating Classroom Through Game Play
- **Adaptive Learning:** Emotional Avatars in XR Simulations: Improving Communication & Empathy
- **Pandemic Pedagogy:** Exceptions ARE the Rule: Defining Learner Types for HyFlex Design Adaptations
- **Course Design and Delivery:** "Find an Article on...": Integrating Information Literacy Throughout a Course
- **Elevation of Instructional Design**
: Hybrid Models and the Big Pivot for Online Learning Infrastructure
- **Accessibility and Universal Design:** Universal Design For Learning (UDL): Strategies for Success

and much more!

Attendees join us each year from a broad range of educational institutions and private organizations. Many Colorado colleges and universities are well-represented, as are numerous post-secondary schools and community colleges from the Rocky Mountain region.

We also host national and international attendees from a number of places each year. Renewal credit for education is available where applicable, and upon request by attendees.

SESSION QUALITY

DON'T JUST TAKE OUR WORD FOR IT

“

It was great to meet colleagues from across the CU System who are doing **interesting** and **innovative** things.

Variety of session topics, good presenters. I learned a lot in every session.

I come to this conference every year and really enjoyed it. I always come away with great **new ideas** for my classes. I really enjoyed the happy hour as it was great to get to **network** with other attendees that I didn't meet in session.

Faculty Program Chair Janice Thorpe

Janice Thorpe, Ph.D., will serve as the first Faculty Program Chair of the Colorado Learning and Teaching with Technology (COLTT) Conference, now planning an in-person convening for Aug. 3 and 4 at the University of Colorado Boulder.

This new role within the System Office for Academic Affairs will support COLTT's mission to further teaching with technology through sharing effective practices and building a network of support across the system and throughout the state.

For over 25 years, Thorpe has taught at the University of Colorado Colorado Springs in the Department of Communication, where she also is the director of the Online Program, course director for Research Methods, and the department's assessment director.

A dedicated member of the COLTT community, Thorpe is an advocate for rigorous, quality online learning courses and programs. As a self-described data nerd, her research focuses on instructor presence and immediacy, and assessment of student learning in the online environment.
