CWC Survey at System Administration

About the CWC Survey

Campus & Workplace Culture Survey

The University of Colorado is committed to creating an inclusive environment where all members of our community feel respected, supported, and valued. The purpose of the Campus and Workplace Culture Survey is to gather information from CU students, staff, and faculty about their academic, workplace, and residential environments. At the system administration, the survey was administered collaboratively by the Offices of DEI and IR in coordination with Employee Services. The survey launched on October 15th and closed on November 12th. We had a strong response rate for the system administration, with 88.7% of employees participating in the survey (502 individuals). Further, every department grouping surpassed a 75% response rate, which is critical to ensure the survey findings are representative of the system office.??
