

PERA 457 ^[1]

All eligible employees can enroll in the PERA 457 plan. This is a defined contribution plan that employees can choose whether to contribute funds before or after tax.

- The pretax option lowers your taxable income now. You'll pay taxes on your distributions in retirement.
- The 457 offers a ROTH option. Consider the ROTH option if you want to contribute after tax, allowing for tax-free growth and tax-free distributions in retirement.
