

## **Services** <sup>[1]</sup>

The OIS offers many services to help ensure the privacy and proper handling of university information assets. The following are provided in support of the university's academic mission and the strategic vision of each campus.

### **Security Posture Assessment**

Assessment services include vulnerability scanning, web application, and general assessments for existing or proposed IT services.

[LEARN MORE](#) <sup>[2]</sup>

### **Compliance Support**

Assists with interpreting requirements, identifying security options to meet requirements, and performing gap assessments.

[LEARN MORE](#) <sup>[3]</sup>

### **Security Consulting and Review**

Includes review of technical designs/architectures for security risks and guidance on available security options and best practices.

[LEARN MORE](#) <sup>[4]</sup>

### **Awareness and Training**

Provides training content and tools to departments across the CU system.

[LEARN MORE](#) <sup>[5]</sup>

### **Security Monitoring / Response**

Monitor and respond to threats and attacks that place CU at risk.

[LEARN MORE](#) <sup>[6]</sup>

### **Technology Solutions**

Manage licenses and vendor relationships for broadly used security technologies at CU.  
[LEARN MORE](#) [7]

## Policy and Governance

Manage multiple system-wide policies and CU security standards.
